The Overseers of the Poor of Weymouth will meet on the 1st of May, 1881, at 10 o'clock, A. M., in the Town House, Weymouth, Mass.

ROUSEBOLD.

Kerosene will make the tin tea-kettle or how horses are trained, says: "One after another beautiful oddities were ridden out over the track, moving at a gliding, easy gait, flying at rapid circles, racing or bowing into the air, as the rider willed. All their horses, I believe, were thoroughbred, and their prices ranged from \$800 to \$1,000. So well were they gaited as trained that the rider had to toss the mane in a given place or make certain signs to have them take a right, a left, or a back, or to stop. Any one who learned to manage these gaited in a very short time, as I found from experience. But the method by which these horses are so perfectly trained I could not learn. Either the trainers do not know exactly how to impart this information, or they are determined to keep it to themselves."

Some answered my questions by saying: "It is easy enough. You can take a horse do anything you want to. Only let him know what you want him to do. You had better wear spurs in riding, give him the lead freely, and if he takes one sign to you, you can give him the other, just as you wish. Here he passed on a track, and as the rider touched him with the top of his fingers on the head, he struck out or a fall trot." Now, said I, how was that horse trained to do as to strike at that sign? "Why," answered the trainer, "our horses are trained to do as the rider wishes them to do from the time they are colts. I asked Mr. Lindenberger, 'What is the secret of the superiority of Kentucky horses?' 'There is a combination of causes,' he answered.

The great majority of the horses here have been bred in Kentucky, and will find it crossed somewhere back in their pedigrees. The best strains of running or trotting blood have been taken from here to other States, and they there find to produce the desired results. 'There is something in the line grass, the water, the atmosphere and the general climate of the State, and, as Mr. Treacy told you this morning, there is something in the soil, the breeding and training. We force our horses to a gait when they are one year old, and at three years old they are pretty well developed. The Northern men, however, always improve them. 'How long have Kentucky horses held their high place?' I inquired. 'No one here can tell. I know my own time, and then they were held by their state that held their earliest childhood they have heard of the superiority of our horses. Their fathers before them had the same story to tell. The fact is, that somewhere in the past there was brought into this State a pure strain of thorough blood, derived from the best stock of the mother world, and it has been bred and bred and bred to the present time. It is a lamentable fact that we have not the exact data upon which to base a history of the Kentucky horse.' The latest horses in the world have been bred and trained in this neighborhood. Mail Stone, better known as Mand B, record, 2:10.34, Wagoner, 2:10. Woodford, 2:10.34, 2:21; Trickett, 2:19; Dick Moore, 2:22; John Morgan, 2:21; Indianapolis, 2:21; Racehorse, 2:20, and but a few of the race-horses that have been sent of Kentucky, while the number of her carriage, saddle and trotting horses that have been sold alive, and are now scattered throughout our large cities, could not more be calculated than one could count the trees of the forest."

HOW A HIRD WAS FOUND. A wealthy physician of Manchester, Tenn., bought a \$1,000 diamond ring for his daughter. About three years since, while riding out, the ring was lost, and it was advertised and liberal rewards offered for its recovery, but nothing was ever heard of it. A few weeks ago a child of a blacksmith was taken sick, and the physician called to see her. While at the bedside he had occasion to mention his daughter's name. At this the child's mother took from her finger a ring, and handed it to the physician, and asked him if it was her husband's ring. He examined it and found it was the same as the one which she had lost. The child's mother had found it in the bottom of a horse's foot only a few days before that while cleaning out the hoof for the purpose of shoeing him. One small diamond was missing.—Richmond (Ky.) Register.

THREE YEARS AGO. Three years ago the Philadelphia Medical Society appointed a committee to investigate the condition of the schools in the city of Philadelphia. The report of the committee was read by the chairman, Dr. Risley, at a recent meeting of the society. The committee had examined about 2,000 pupils of the condition of those examined, Dr. Risley had, had proved that there had been a decrease of twenty per cent. in the number of pupils in the city schools. The average of the twenty per cent. was that of twenty-five per cent. among the smaller children to forty per cent. among the older scholars. The average of dissipated parents was that of twenty per cent. among the parents of the children who were examined. The average of the parents of the children who were examined was that of twenty per cent. among the parents of the children who were examined. The average of the parents of the children who were examined was that of twenty per cent. among the parents of the children who were examined.

RESULTS OF EXCESS. The great majority of the ills which affect us, and the diseases from which we suffer, causing us pain and shortening our lives, are the fruits of the excess we practice in feeding. Good, nutritious food, the various forms of food, and the many known and recognized results of excess or disorderly feeding, are only the coarser and more evident consequences of overfeeding. Underlying these and unnoticed by the victim of this common error are the multitudinous forms of organic disease and disturbance.

STARVED. While Vienna was burning over the recent imperial marriage, a poor father, the father of five children, all starving, sent himself up with them a bowl, hatched them, and stated himself. Suspicion having been aroused, the door of the room was burst open, and the police found him just alive, but covered with blood. He sat up a moment, gazed at the five corpses, and then at the many known and recognized results of excess or disorderly feeding, are only the coarser and more evident consequences of overfeeding. Underlying these and unnoticed by the victim of this common error are the multitudinous forms of organic disease and disturbance.

EMPLOYER'S LOSS.

A letter from Lexington, Ky., describing how horses are trained, says: "One after another beautiful oddities were ridden out over the track, moving at a gliding, easy gait, flying at rapid circles, racing or bowing into the air, as the rider willed. All their horses, I believe, were thoroughbred, and their prices ranged from \$800 to \$1,000. So well were they gaited as trained that the rider had to toss the mane in a given place or make certain signs to have them take a right, a left, or a back, or to stop. Any one who learned to manage these gaited in a very short time, as I found from experience. But the method by which these horses are so perfectly trained I could not learn. Either the trainers do not know exactly how to impart this information, or they are determined to keep it to themselves."

Some answered my questions by saying: "It is easy enough. You can take a horse do anything you want to. Only let him know what you want him to do. You had better wear spurs in riding, give him the lead freely, and if he takes one sign to you, you can give him the other, just as you wish. Here he passed on a track, and as the rider touched him with the top of his fingers on the head, he struck out or a fall trot." Now, said I, how was that horse trained to do as to strike at that sign? "Why," answered the trainer, "our horses are trained to do as the rider wishes them to do from the time they are colts. I asked Mr. Lindenberger, 'What is the secret of the superiority of Kentucky horses?' 'There is a combination of causes,' he answered.

The great majority of the horses here have been bred in Kentucky, and will find it crossed somewhere back in their pedigrees. The best strains of running or trotting blood have been taken from here to other States, and they there find to produce the desired results. 'There is something in the line grass, the water, the atmosphere and the general climate of the State, and, as Mr. Treacy told you this morning, there is something in the soil, the breeding and training. We force our horses to a gait when they are one year old, and at three years old they are pretty well developed. The Northern men, however, always improve them. 'How long have Kentucky horses held their high place?' I inquired. 'No one here can tell. I know my own time, and then they were held by their state that held their earliest childhood they have heard of the superiority of our horses. Their fathers before them had the same story to tell. The fact is, that somewhere in the past there was brought into this State a pure strain of thorough blood, derived from the best stock of the mother world, and it has been bred and bred and bred to the present time. It is a lamentable fact that we have not the exact data upon which to base a history of the Kentucky horse.' The latest horses in the world have been bred and trained in this neighborhood. Mail Stone, better known as Mand B, record, 2:10.34, Wagoner, 2:10. Woodford, 2:10.34, 2:21; Trickett, 2:19; Dick Moore, 2:22; John Morgan, 2:21; Indianapolis, 2:21; Racehorse, 2:20, and but a few of the race-horses that have been sent of Kentucky, while the number of her carriage, saddle and trotting horses that have been sold alive, and are now scattered throughout our large cities, could not more be calculated than one could count the trees of the forest."

HOW A HIRD WAS FOUND. A wealthy physician of Manchester, Tenn., bought a \$1,000 diamond ring for his daughter. About three years since, while riding out, the ring was lost, and it was advertised and liberal rewards offered for its recovery, but nothing was ever heard of it. A few weeks ago a child of a blacksmith was taken sick, and the physician called to see her. While at the bedside he had occasion to mention his daughter's name. At this the child's mother took from her finger a ring, and handed it to the physician, and asked him if it was her husband's ring. He examined it and found it was the same as the one which she had lost. The child's mother had found it in the bottom of a horse's foot only a few days before that while cleaning out the hoof for the purpose of shoeing him. One small diamond was missing.—Richmond (Ky.) Register.

THREE YEARS AGO. Three years ago the Philadelphia Medical Society appointed a committee to investigate the condition of the schools in the city of Philadelphia. The report of the committee was read by the chairman, Dr. Risley, at a recent meeting of the society. The committee had examined about 2,000 pupils of the condition of those examined, Dr. Risley had, had proved that there had been a decrease of twenty per cent. in the number of pupils in the city schools. The average of the twenty per cent. was that of twenty-five per cent. among the smaller children to forty per cent. among the older scholars. The average of dissipated parents was that of twenty per cent. among the parents of the children who were examined. The average of the parents of the children who were examined was that of twenty per cent. among the parents of the children who were examined.

RESULTS OF EXCESS. The great majority of the ills which affect us, and the diseases from which we suffer, causing us pain and shortening our lives, are the fruits of the excess we practice in feeding. Good, nutritious food, the various forms of food, and the many known and recognized results of excess or disorderly feeding, are only the coarser and more evident consequences of overfeeding. Underlying these and unnoticed by the victim of this common error are the multitudinous forms of organic disease and disturbance.

STARVED. While Vienna was burning over the recent imperial marriage, a poor father, the father of five children, all starving, sent himself up with them a bowl, hatched them, and stated himself. Suspicion having been aroused, the door of the room was burst open, and the police found him just alive, but covered with blood. He sat up a moment, gazed at the five corpses, and then at the many known and recognized results of excess or disorderly feeding, are only the coarser and more evident consequences of overfeeding. Underlying these and unnoticed by the victim of this common error are the multitudinous forms of organic disease and disturbance.

GAZETTE SUPPLEMENT.

NANTASKET.

Liquor Seizure.
About 5.30 o'clock last Saturday afternoon, officers Mettrich, Southern, John and Jacob W. Smith, together with a posse of men, proceeded to the beach by a power by, should one have appeared by chance in that vicinity, holding what appeared to be a note in his hand with Deputy Sheriff Spring and officers Ernest Whitton and Giles H. Gardner of Hingham. What passed between them is unknown, but from the results we may surmise that it was of great importance, for soon afterwards we found them upon the war path. After hitting up their ambulances, evidently expecting a battle, officers McGrath and Whitton drew up at the Plymouth Cottage kept by Robert Kelley, officers Smith and Gardner paid their respects to the proprietor of the Charpentier House, Daniel W. Murphy, while Officer Southern and Deputy Sheriff Spring made a friendly (2) call upon Wm. M. Farrell, keeper of the Eureka House.

At Plymouth Cottage they seized 8 gallons of wine in kegs, 41 quart bottles of imported wine, 2 gallons gin, 9 quarts whiskey, 5 quarts rum, about 1 quart lager beer, 2 quarts champagne, 2 quarts brandy and 30 quart bottles of other liquors. At Murphy's place the officers obtained 104 bottles lager beer, 41 bottles imported wine, 2 quarts rum, 2 quarts brandy, 1 qt. whiskey, 7 bottles ale and 1 qt. mixed liquors. At the Eureka House the officers were so much surprised to find a small of the "veritas," coming away sorely disappointed. It is hoped this is only the commencement of a warfare which will result in pushing to the wall this nefarious business, which has always been a nuisance to both inhabitants and visitors, and we have good reason to believe from the character of the men having the matter in charge that such will be the case.

The introduction of Acaud pond water from Hingham marks a new era in the development of this fashionable summer resort, and will obviate what has at times been a serious drawback—the obtaining of a sufficient quantity of pure water to supply visitors as well as inhabitants. The Water Company are pushing the laying of the pipes with vigor, and will soon be prepared to supply water all along the line to those desiring it and willing to bear what small expense is necessary to secure it. Before another season opens we hope to be able to supply water to all parts of the beach and on adjacent roads.

William S. Whitton of Hingham, has purchased the Sea Breeze House property at Sagamore Hill, which is to be refitted and rented on as a No. 1 boarding house by Mrs. Whitton. \$75,000 was the price paid.

Honor has it that Mr. Austin Torrey of Columbia Avenue, Boston, intends to build a large hotel upon his land near the bridge. Workmen have been engaged in clearing away the stones and underbrush upon the lot, which would seem to indicate that something is to be done with the premises.

The New Railroad.
Work on the road from the Old Colony station to the beach has been much delayed by the stormy weather we have had during the past three weeks, and the heavy winds and rains have made slow work along the line in several places. The Old Colony Railroad Company are doing the filling with two trains of gravel cars—one of eighteen and one of nineteen cars. The engine Northern, under the charge of Mr. A. Marks, engineer, has been engaged upon the work since it was commenced. Mr. J. Thomas is the conductor of the train, and both have a great deal of responsibility, as they have to be very careful to keep on the way of the regular passenger and freight trains on the South Shore branch, and still put through as many gravel trains as possible in a day. They have had much to do when the weather permitted from one thousand to twelve hundred cars a week.

The Waverly House was opened last Monday under the management of Mr. Pym C. Burr, assisted by his sons Fred W. and Henry H., of Hingham Centre.

BINGHAM.

Serenade.
Last Saturday evening the Hingham Brass Band complimented one of their members, Mr. A. Willis Lincoln, recently married, by a serenade at his residence on South street, West Hingham. About 9 o'clock the band made its appearance in front of the house and opened the serenade by playing "Home Sweet Home." After performing two other pieces they entered the house and, arranging themselves in the parlor, played upwards of an hour, modulating their music so that it sounded but little louder than the music of a piano, but still loud enough to be distinctly heard and enjoyed by the neighbors and by the large company gathered upon the sidewalk. At quarter past ten the members of the band were invited into the dining-room by partake of a beautiful repast provided by the young host and hostess, and we may say in passing that we have seldom seen a more attractive looking table. After doing full justice to the viands, the band returning to the parlor resumed playing, concluding, shortly after 11 o'clock, with "Auld Lang Syne." The occasion was one of great enjoyment not only to the members of the band but to a number of invited guests who were in the room over the parlor, listening to the music. We must not close our account without paying a deserved tribute to every member of the band who was there, for quiet, gentlemanly behavior when there were no ladies immediately present, but it was, after all, only what might have been expected of the Hingham band, every member of which on all occasions is a gentleman.

Concert.
Corner Stone Lodge, No. 13, I. O. O. F., were visited last Saturday evening by delegates from the Rising Sun Lodge, of Newport; Hancock, of Quincy; Highland Light, of So. Weymouth, and Mutual, of East Weymouth. After the preliminary exercises of the lodge and the initiation of a new member, short speeches were made by Worthy Chief Templar Raymond, Bro. Frank Spear, Thomas and Mills of Mutual Lodge; Worthy Chief Templar Cummings and others of Rising Sun; Worthy Chief Templar Quincy, Bro. Southern and Anders of Hancock and sister Nash, of Highland Light; W. C. T. Johnson, Bro. Harby, Whitney, F. W. Woodard and Dr. of Corner Stone Lodge. Brother Bicknell of Mutual Lodge, favored the company with a comic song, entitled, "What shall we name our baby?" and Brother Watson of Hancock, sang Little Sally Waters, sitting in the sun, both of which were rendered in a satisfactory manner. The speeches were bright, witty, interesting. After these exercises were closed the visiting guests were treated to oranges and post, and homemade. At half-past eleven o'clock the visiting lodges returned to their homes well pleased with their evening's enjoyment with Corner Stone Lodge of this village.

A regular monthly meeting of the Agricultural Society, held at their hall last Monday evening was largely attended. Edmund Hersey read an interesting paper on "Ensilage," which was discussed by several of the members.

A few friends gathered at the residence of Mr. Edward T. Newcomb last Monday evening, it being the evening of a surprise to him. The occasion was spent in a social manner, vocal and instrumental music being furnished by a gentleman from East Falmouth, after which an excellent dinner was partaken of by the guests, and which surprised upon Mr. E. T. Newcomb's second best style. A good time was enjoyed by all.

Mrs. Janthe Proston, of Salem, with her daughter Edith and her son Edward, after an absence of six years, returned to her old home last week, and is now paying a visit to many of her friends.

The Ladies' Benevolent Society held their annual meeting at the Niagara Hall, last week Thursday afternoon. In the evening quite a large number of gentlemen were present and took tea with the ladies, after which a social time was indulged in by all.

Notice.
Mr. Edward R. Sprague, who was married on June 1st, was serenade last Friday by a party of his friends.

Master William E. Newcomb has gone to work in the meat market by Mr. George L. Fay, at Holliston.

The schooner Exchange, owned by Mr. Atkinson Nye, and the last of a fleet of eighty vessels, has been sold, thereby leaving the fishing fleet extinct.

BOITUATE.

The following parties registered at Smith's Hotel last week: W. R. Palmer, A. H. Palmer, H. A. Schmidt, of New York, of the yacht Lillie Thorne; James O. Wadlow, Stoughton, Ct.; Alfred P. Vialle, C. P. Brown, T. Brown, Morris Letland, Mrs. M. Smith and daughter, O. P. Decker, J. H. McConnell, E. R. Hines, Boston; J. H. Harden and wife, T. Hersey and lady, Wm. King, Mrs. Maria Smith, Hanover; L. Littlefield Scituate; Eugene S. Ellis, Hiram Child, Woburn; Samuel C. Nelson, of New York.

Four ladies while out walking last Friday were chased by a cow, who would have injured one of them if it had not been for the timely assistance of Mr. George Harrison. The ladies were very much frightened.

Last Sunday, as Mr. Timothy McCarthy was feeding on the roof of Mr. John Bryant's house, he accidentally fell to the ground, breaking one of his legs. Dr. Pratt was called to attend him.

Messrs. Robinson and Crane, actors, returned Monday to their summer residence.

Five young misses Lotta Pratt, Lotta May, Abbie Mott, Marion Pratt and Ella Hayden, as they were turning around over at North Scituate, on Monday, one of the wheels was cramped, injuring it somewhat.

Harriet the actor has let his summer residence to Mr. Hannah, who owns an Opera house and rolling mill at Chicago, he having gone to Europe on a tour.

A Spiritualism meeting was held at Wilder's Hall, North Scituate, last Tuesday evening.

Early rises Sunday morning discovered an odd figure in the air which proved to be an alloy attached to the peak of the Bazaar.

Mr. Foster Deane is in the employ of Hunt's express.

OOHASSET.

House Matters.
Tower Bros. have a large stock of everything in the house building line, and our readers will find it to their advantage to call at their place, as they offer the best at the current rates. See their advertisement.

Letter from South Hingham.
Rev. Mr. How has not yet preached at the "Second Church" in this place. His health has been such that he has not officiated at his own church for a few Sabbaths past. We hope his health will permit him to resume his duties soon again, and to favor us with his services as soon as it is convenient to do so. The society here do not object to hearing other denominations, though they have decided opinions of their own.

Hon. John A. Ordway and family have taken up their summer residence here the past few days in the mansion formerly owned and occupied by Andrew C. Cushing, of this village. The home under his supervision is thrown open with an apparent hospitality which greets you as you pass with a pleasant and agreeable generosity. His two street lights shine brightly every evening and with his brilliant house illumination, ought to shame the miser who sits in a dark corner with only a tallow candle with which to find his place to read.

The loss carpenter of this place is Elijah H. Fisking. Last year he built an elegant house for Lawyer Hyde on the Jerusalem road near the beach, and the work was done so satisfactorily that he received a handsome present after it was finished. This season he is building one for M. F. Dickerman, Esq., near the same place, which will be a superb mansion, fit for a residence of the Queen.

Several other buildings are in process of erection around the shore. A large hotel is being put up by Morris & McCoy, near the Pacific House, which will accommodate one or two hundred boarders and any quantity of transient ones. Boarders are beginning to look for places to board already. Mrs. Hargis has taken the "Highland Cottage" again and boarders are engaged for the first of June.

That Horse Exchange.
Our chief engineer, Mr. George Ordway, has contracted with the Abbott Downing Co., of Concord, N. H., for a horse carriage for Hingham Centre. We understand that the new carriage will not be so large as the Isaac Little. We have not heard that any name for it has yet been decided upon, but suggestions for a name are now in order. The machine will probably arrive here late in July.

Renovating.
Mr. P. I. Sweating, formerly of East Weymouth, but now connected with Spring & Sprague in their place at the cave, has in charge the Weymouth Belle, owned by Mr. M. L. Cushing of the Weymouth House, East Weymouth, which he will varnish and polish up for the coming season's campaign.

Notice.
Joseph E. Ford of South Scituate, for a conveyance of a carriage with six dollars, the property of Hiram A. Dickman, was adjudged guilty and fined \$10 and costs.

That Horse Exchange.
The Board of Selectmen have appointed John Young, Geo. W. Bailey and E. Parker Welch police officers for the remainder of the year. It is hoped that the roadways so often seen upon our streets will be kept with as few defects, and from the character of the men appointed we have no doubt but they will attend to the matter as it should be. One of them was formerly a member of the Providence police force.

That Horse Exchange.
In compliance with a vote of the town passed at the last annual meeting, March 7th, the committee on enforcement of the liquor law have offered a reward of \$25 to any person who shall furnish necessary proof for the conviction of any person or persons who violate the present liquor law in this town.

Personnel.
Last Sunday while Mr. Frank Dyer, representative of South Scituate, and who received severe injuries on the first of January last, at East Weymouth by a train of cars running off the track, with his family was passing through Hoane street, and when opposite the residence of Mr. Warren Newcomb, the horse became frightened at some obstacle in the road, backing off the bridge into a meadow, throwing the whole party out of the team, but who fortunately escaped without injury, with the exception of a few slight bruises. The carriage, which was new, was made a total wreck.

WILSONIA.

Triumphant!
The "WILSONIA" has been the most successful of all the "WILSONIA" boats. It has been built by the "WILSONIA" Boat Works, and is now being built by the "WILSONIA" Boat Works. It is a small, light, and fast boat, and is well adapted for use in the bay and harbor. It is built of the best materials, and is finished in the most elegant style. It is a most desirable boat for use in the bay and harbor.

Consumption Can Be Cured!
The "WILSONIA" is a most desirable boat for use in the bay and harbor. It is built of the best materials, and is finished in the most elegant style. It is a most desirable boat for use in the bay and harbor.

Weymouth

BRAINTREE REPORTER.

VOLUME XV.

WEYMOUTH, MASS., FRIDAY, JUNE 24, 1881.

NO. 8.

Unusually Beneficial.
To breathe pure, healthful air, and to secure a constant supply of healthful and long life are the privileges of the minority. The majority must dwell wherever their lot is cast, however unfavorable the locality may be, and work at the craft assigned to them, however destructive to mind and vigor. Medical science has, however, come to the aid of the latter. In Hottel's Stramon Bitters they find the best defense against the morbid influences which create and perpetuate disease. The vegetable kingdom can supply, in a preservative and remedy for the disease, a powerful, energetic, and invigorating agent, in the form of mineral, anhydrous water, or any other suitable base. Hottel's Stramon Bitters bear away the pain from all medicines of the present day.

Paying visits.—The doctor's.
That when Tempus comes, nothing can quickly regulate the attention and keep it pure as Warner's Safe Kidney and Liver Cure.

A new industry, the extensive cultivation of flowers for perfumery purposes, is about to be started in this city. The crops to be very remunerative; a good crop of lavender will yield \$1000.

Persons in want of furniture (and who is not?) should go to the business warehouses of the city, where they will find a large and complete stock of furniture, at prices that will compare favorably with those of any other city in the State.

Science does not always mark wisdom.

A REVENUE.
The State has a large revenue in medicine, with curative properties of the highest degree, containing no poisonous drugs, and acting upon the system, but without killing it. It is a powerful, energetic, and invigorating agent, in the form of mineral, anhydrous water, or any other suitable base. Hottel's Stramon Bitters bear away the pain from all medicines of the present day.

A recent issue of the London Times had scarcely done its duty in the matter of the London Convention, when it was found that the Convention was not held from February to April.

Weymouth Gazette. FRIDAY, JUNE 24, 1881.

ALL AROUND THE HUB.

POSTAL. The Boston Herald office last week contained an article stating that there was a probability that the Republican party in Massachusetts will have to look up a new candidate for governor...

That he is fully as popular as any governor we have ever had in our State. He is a man of great talents, and his great ability and his solid honesty shall give to Massachusetts her old-time influence in national affairs...

But while Gov. Long has no desire for a re-nomination, he feels that he must still do his duty to the party which he has twice led to victory...

BUNKER HILL ANNIVERSARY. The anniversary of the battle of Bunker Hill, as it is called, though every school-boy knows or should know that no such battle was ever fought, was observed last Friday at Charlestown...

But though hearing a false name, the anniversary of the battle fought in Charlestown the 17th of June, 1775, is observed year after year, and with much enthusiasm as could be expected...

There is another reason why the 17th of June is not made more of a day; it is one of those days which is only half observed as a holiday because it is not a legal holiday...

OTHER HARBOR STEAMERS. The almost unprecedented cold weather of the present month has had a depressing effect upon the stockholders and the officers of our harbor steamers...

LOCAL TOPICS. The Public Schools. The School Committee of Weymouth have been very busily engaged in the examinations of the large number of public schools in town...

RAILROAD CROSSINGS. A week or two ago the subject of the crossing of some of the streets of the city by steam railroads, was brought up before one branch of the city government...

Death of a native of Weymouth. A notice of the death of a native of this town, as follows:—The announcement that ex-County Treasurer H. P. Thomas, of Hampton, died at 10.30 o'clock, Tuesday morning...

But he is fully as popular as any governor we have ever had in our State. He is a man of great talents, and his great ability and his solid honesty shall give to Massachusetts her old-time influence in national affairs...

But while Gov. Long has no desire for a re-nomination, he feels that he must still do his duty to the party which he has twice led to victory...

BUNKER HILL ANNIVERSARY. The anniversary of the battle of Bunker Hill, as it is called, though every school-boy knows or should know that no such battle was ever fought, was observed last Friday at Charlestown...

There is another reason why the 17th of June is not made more of a day; it is one of those days which is only half observed as a holiday because it is not a legal holiday...

OTHER HARBOR STEAMERS. The almost unprecedented cold weather of the present month has had a depressing effect upon the stockholders and the officers of our harbor steamers...

THE STEAMBOAT. Manufactured by the Bay State Steamboat Co., whose works are at North Weymouth, have secured a justly deserved popularity in the market for their superior quality of strength, durability and excellence of material used in their manufacture...

RAILROAD CROSSINGS. A week or two ago the subject of the crossing of some of the streets of the city by steam railroads, was brought up before one branch of the city government...

Death of a native of Weymouth. A notice of the death of a native of this town, as follows:—The announcement that ex-County Treasurer H. P. Thomas, of Hampton, died at 10.30 o'clock, Tuesday morning...

But though hearing a false name, the anniversary of the battle fought in Charlestown the 17th of June, 1775, is observed year after year, and with much enthusiasm as could be expected...

There is another reason why the 17th of June is not made more of a day; it is one of those days which is only half observed as a holiday because it is not a legal holiday...

OTHER HARBOR STEAMERS. The almost unprecedented cold weather of the present month has had a depressing effect upon the stockholders and the officers of our harbor steamers...

SOUTH WEYMOUTH. The following officers of Orphan's Hope Lodge, F. & A. M., were installed Wednesday week by D. D. G. M., C. W. S. Seymour and wife, the members being present with ladies:—

RAILROAD CROSSINGS. A week or two ago the subject of the crossing of some of the streets of the city by steam railroads, was brought up before one branch of the city government...

Death of a native of Weymouth. A notice of the death of a native of this town, as follows:—The announcement that ex-County Treasurer H. P. Thomas, of Hampton, died at 10.30 o'clock, Tuesday morning...

But he is fully as popular as any governor we have ever had in our State. He is a man of great talents, and his great ability and his solid honesty shall give to Massachusetts her old-time influence in national affairs...

But while Gov. Long has no desire for a re-nomination, he feels that he must still do his duty to the party which he has twice led to victory...

BUNKER HILL ANNIVERSARY. The anniversary of the battle of Bunker Hill, as it is called, though every school-boy knows or should know that no such battle was ever fought, was observed last Friday at Charlestown...
